Floodlighting

DESCRIPTION

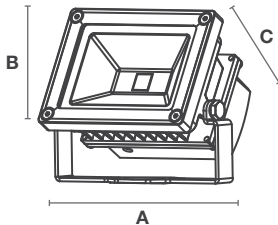

The TAFLL flood light is a versatile unit with multiple mounting options that satisfy many of your lighting applications. The TAFLL can be utilized as a floodlight or a security light in conjunction with our MSP motion sensor range, and can be adjusted to almost any position to direct the light where needed.

FEATURES

- Durable die cast powder coated aluminum housing with stainless hardware
- Finned heat sink designed to dissipate the radiant heat efficiently
- Fully gasketed tempered glass lens
- 120-277V Operation
- Ultra-bright 5000K, 50W LED producing over 3500 lumens
- LED light source does not attract most insects
- Specular aluminum back reflector creating a 160° beam spread
- Mountable with yoke bracket
- Fixture provided with 6' power cord to allow versatility in many installation applications
- UL listed for wet locations
